Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Reopening of Prosecution

Prosecution on the merits of this application is reopened on claims 1-20 considered unpatentable for the reasons indicated below.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-4, 8, 9, and 11-13 are rejected under 35 U.S.C. 102(e) as being anticipated by Mohr et al. (US 5,993,642).

The Mohr reference discloses a composition that comprises a zeolite core such as an MFI zeolite core. This zeolite has a silica to alumina ratio of at least 2:1. This teaches ratios within the claimed range. The composition also comprises a second zeolite that coats the core. This teaching is deemed to disclose the claimed mantle. The second zeolite can be of the same type as the zeolite core. The zeolites used in the composition can also comprise gallosilicates (i.e., the zeolites contain framework gallium). Additionally, framework phosphorus is not present. Since the zeolites are MFI type zeolites, the zeolites would necessarily be characterized by the claimed formulas. The Mohr reference discloses that the composition preferably contains less than 10%

Art Unit: 1764

of a non-zeolite binder such as silica. Therefore, the composition can contain small amounts of silica binder. The catalyst can also contain non-framework metals such as those in the claimed groups. The disclosed composition can be used in hydrocarbon conversion reactions. See column 2, lines 61-67; column 3, lines 1-6 and 52-67; column 4, lines 1-43; column 6, lines 24-50; column 7, lines 18-65; column 8, lines 50-67; column 9, lines 1-24; and column 14, lines 33-46.

Allowable Subject Matter

Claims 5-7 and 10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 14-20 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: The prior art of record does not disclose or suggest a composition as claimed or its use in which the mantle is boralite.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Walter D. Griffin whose telephone number is (571) 272-1447. The examiner can normally be reached on Monday-Friday 6:30 to 4:00 with alternate Fridays off.
